

BJHS - Numeracy Newsletter - 4

EARLY & FIRST LEVEL

The Value Of Money

Name: _____

Welcome to the fourth BJHS Numeracy Newsletter. This newsletter aims to promote numeracy skills amongst students and prepare them for using maths in everyday life.

This newsletter is about the value of money and understanding how much things cost. We encourage you to sit down with your child and work through the examples with them - discussing how you would go about solving the problems - the questions get harder as you go through the sheet.

Newsletters that are returned (don't worry if you haven't done them all) will go into a prize draw for a £10 Amazon gift voucher!

For more numeracy information, visit the school website and go to the Numeracy page where you will find ideas, all the Numeracy newsletters and links to BBC Skillswise and Parent Zone.

These questions are around Early Level and should be within the range of Lower and Middle Primary, Give it a try!

1. Can you match each coin to how much it is worth?

1p	2p	5p	10p	20p	50p	£1	£2
----	----	----	-----	-----	-----	----	----

2. How much does the chocolate cost?
